STEVEN W. CRANFORD

EDITOR-IN-CHIEF
CAMBRIDGE, MA, USA

A graduate from Memorial University (Canada), Stanford University (USA), and Massachusetts Institute of Technology (USA), Dr. Cranford was faculty at Northeastern University's College of Engineering prior to accepting a new role as editor-in-chief for Matter.

He has over 50 publications in the field of materials sciences in a range of high impact journals, including Nature and Advanced Materials, with expertise in the area of atomistic simulation, computational modeling, and nanomechanics, encompassing a variety of materials systems, from carbyne to copper to concrete.

He would have preferred to have published in Matter, but it didn't exist. He constantly played with LEGO blocks as a child, likely leading to his interest in material assembly and structure.
